

*Fondazione Oronzio e Niccolò De Nora*  
*2002 Prizes*

⑄ **International Society of Electrochemistry (ISE):**

- *Dr. Jaeyoung Lee (Research Institute of Industrial Science & Technology, Pohang City, Korea):* Young Author Prize for the paper "On the origin of oscillations in the electrocatalytic oxidation of formic acid on a platinum electrode modified by bismuth deposition"

⑄ **University of Milan (Italy):**

- *Elena Facchinotti:* Scholarship for the research program "Materials for electrocatalysis"

⑄ **Politecnico di Milano (Italy):**

- *Ilaria Lombardi:* Scholarship for the research program "Electrochemical characterization of hydrogen confined in carbon nanotubes"

⑄ **University of Ferrara (Italy):**

- Sponsorship for a research program on "Production and characterization of oxide - based electrodes"

⑄ **Società Chimica Italiana:**

- **Marco Panizza (University of Genoa, Italy):** Prize for the research "Electrochemical oxidation of organic compounds for the industrial waste water treatment"

⑄ **4th International Symposium "Electrocatalysis: from theory to industrial applications" (Como, Italy):**

- Sponsorship

⑄ **ERA 2002 Conference - Electrochemistry for the rehabilitation of the environment:**

- Sponsorship

⑄ **Moscow Mendeleev University (Russia):**

- 2 Grants for students
