

## Prizes 2021

- **2021 Fondazione Oronzio e Niccolò De Nora Fellowship in Electrochemistry:**  
**Monteiro Mayra** (Federal University of Rio Grande do Norte): “Removal of Persistent Fluoroalkyl Surfactants – Per and Poly Fluorinated Alkylated Substances from water matrices by combined sustainable development goal 6 solutions”
- **Società Chimica Italiana:**
  - **Riccardo Brandiele** (University of Padua) for the thesis “Synthesis and characterization of materials for PEM-FC, based on Pt alloyed nanoparticles supported on next generation mesoporous carbon”
  - **Annalisa Polo** (University of Milan) for the thesis “Ternary oxide semiconductor photoanodes for solar energy conversion”
- **International Society of Electrochemistry:**
  - **Young Author Prize: Yan Boris Vogel**, Technical University Delft for the article “Microelectrode arrays with active-area geometries defined by spatial light modulation” published on *Electrochimica Acta* Vol. 356 (2020), Article 136849

## Sponsorships 2021

- **Società Chimica Italiana:**
  - Chemistry Games open to secondary school students in Lombardy in November
  - Merck Young Chemists’ Symposium in Rimini (Italy) in November
  - Symposium SCI 2021 – digital event in September
- **J. Heyrovsky Institute of Physical Chemistry** for the Clustermeeting 2021 in Praga in July
